LAWRENCE E. PIGFORD (A. B., M. A.)

"The measure of a life is not its duration, but its donation." In eight brief years, Lawrence Pigford's contribution to Hobbs was far greater than that of many who have attained the age of threescore and ten. His devotion to his ideals, his genuine love for all humanity, and the glowing radiance of his smiling personality inspired everyone he met. Let us strive, through the deep sense of our loss, to remember our greater gain in the privilege of having known and loved him.

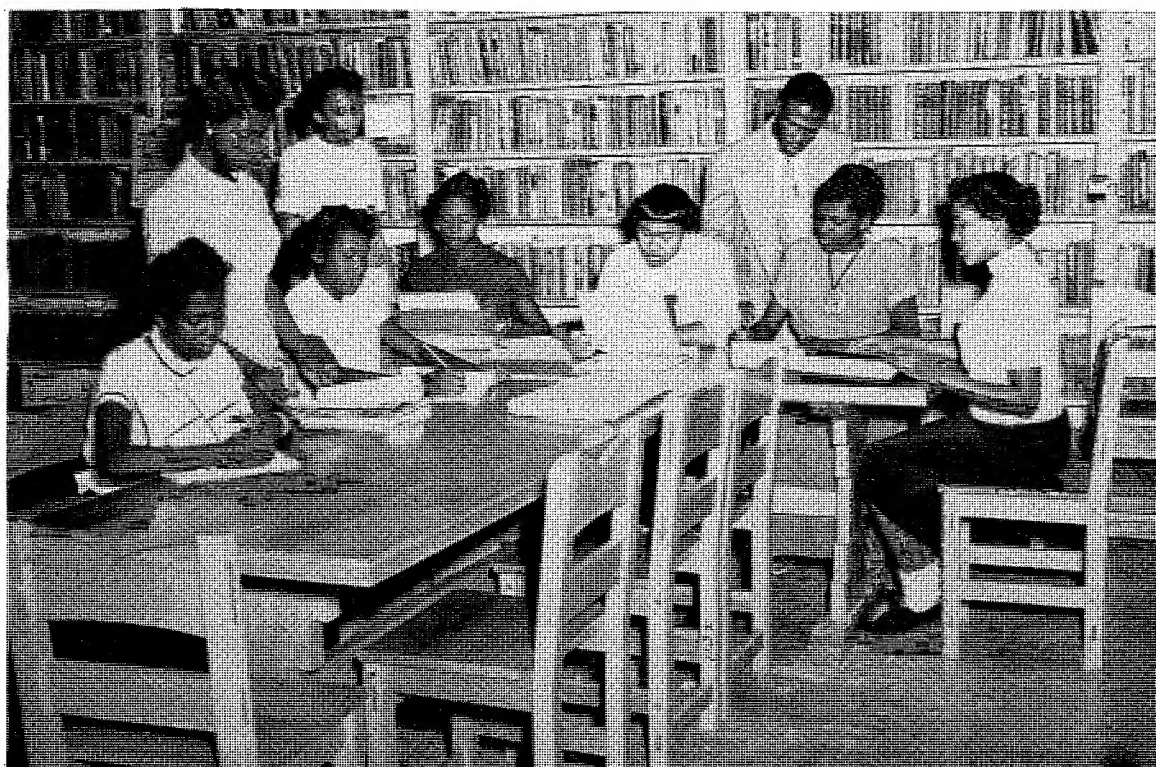

As you go through the pages of this book we hope it will recall many pleasant memories and maybe a few funny ones. We have done our utmost to make this the best annual ever published here, and hope you will think that we have succeeded.

We wish to extend our appreciation to all who have in any way helped to compile this book.

The members of the Student Council and Advisors are to be congratulated for your ambition and initiative. There is no doubt that while your companions slept you were toiling through the night. As a result of your tireless efforts you have given us the "TIGER," our 1954 yearbook. The work in this book exemplifies that many of you have the desire and potential abilities to succeed. The world is waiting for young people with such qualities as each of you has exhibited.

Several members of the council will be completing their high school career at the close of this school year. To these, the "TIGER" will recall many pleasant days and happy events. To the others who continue in pursuit of that goal, graduation, the "TIGER" of 1953-54 should ever be a challenge to you to accumulate as many pleasant memories as possible in the few years remaining in your high school career.

In closing may I again congratulate you for the completion of the "TIGER." My best wishes to those of you who graduate. Your responsibilities and privileges are many-----use them wisely.
